# Introdução à linguagem R

Pablo Silva

Universidade Federal de Goiás

R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.
When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this: https://github.com/cientistacaotico/Introduction-to-R-programming

```
summary(cars)
```

```
##     speed          dist
##  Min.  : 4.0   Min.  :  2.00
##  1st Qu.:12.0   1st Qu.: 26.00
##  Median :15.0   Median : 36.00
##  Mean  :15.4   Mean  : 42.98
##  3rd Qu.:19.0   3rd Qu.: 56.00
##  Max.  :25.0   Max.  :120.00
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
